

## *Your Complete Support Solution*

### **Feeling Abandoned By Your Metrology Software Provider?**

Pacific Edge Technologies knows you may have already paid for a support contract and may be faced with the decision to pay for the SAME support again from the SAME people. We understand that this is a troubling decision and we are here to offer you an alternative option.

### **Believe You Don't Have Another Option?**

Pacific Edge Technologies is committed to providing you with a CHOICE. A choice between the SAME, OLD service and support that you were getting from the SAME group that abandoned you or a NEW version of support, the Pacific Edge Technologies version of support, which is based on integrity and placing our clients needs first.

Pacific Edge Technologies is currently in negotiations to obtain legal authorization and license to sell software products and to provide support services to purchasers and other users of those products which belong to the bankruptcy estate of Norfox Software, Inc. As some of the original developers, our comprehensive knowledge of the design and structure of these products makes us the best solution for your support needs. Not only do you have a choice, YOU HAVE A BETTER CHOICE.

## ***Pacific Edge Technologies is Your Complete Support Solution.***

The Pacific Edge Technologies team has extensive experience in Metrology and Asset Management, Project and Personnel Management, Enterprise Data Movement and Management, Software Design, Asset and Inventory Process Management, Product Support, Life Cycle Management, and trend setting Technical and Customer service models. Our staff is also QA, ISO and CMM trained.

In addition, our team has over 45 years of business and financial management experience, so we are going to be with you, supporting your business, for many years to come.

Experience, honesty, integrity and respect—all ingrained in a company that doesn't just SELL the idea of support, but actually PROVIDES it.
